

Announcements for September 18, 2022

We look forward to hosting a monastic visit by Brother Padmananda and Brahmachari Jason from September 22nd to 25th. Details of scheduled events and services are now published on the Center website. There will be an outing with the monastics on Friday September 23rd to Green Lake. The sign-up sheet is at the information table. We will also have a luncheon with monastics following the Sunday Service on September 25th. You are welcome to bring a vegetarian dish to share with others in a ready-to-serve platter if you like.

As mentioned in the June and July newsletters, the Managing Council has been working on an assessment of the ventilation needs for our chapel. The HVAC vendor assessment was completed in June, the project was approved by Mother Center's Planning and Building Dept in July, and the contract was signed at the end of August. The project cost is approximately \$35,000. Whilst we will use the Center's savings to cover a majority of this expense, the Managing Council would like to request donations to help offset the costs. Please reach out to the Coordinator or Managing Council if you have questions. If you would like to contribute towards this project, please mention "Towards Ventilation Project" when you make the donation. Thank you for your generosity and continued support!

The subject for today's service is "Man's Highest Conception of God".
